Ideas

- After Jovan dies, Deasa sells the horse that had been Ziri's.
- At the climax of *Magic in her Blood*, she needs to fake her death, uses 95% chamomile and 5% nightshade. 4 or 5 drops in a lampskin.
- As Ayden & Ziri ride back, the horse comes up to her. They buy it back and bring it home with them, although Ayden insists she rides with him all the way back.

Backstory

- Jovan
 - He was a close friend of Joshua L'Enfant, the HL's father. They would go adventuring together.
 - Joshua gave Jovan a seat on the Council of Elders. Up until his death, Deasa uses his seat.
- Deasa
 - Did she poison Ardel?
 - Tehron is actually her son. Both she and Ardel went into labor about the same time, Ardel's son died and Deasa's survived. No one, but the midwife knew that Deasa had ever been pregnant.
 - She's a bitter, spinster that comforts widowers, then blackmails them or at least manipulates them.
 - Uses Jovan's seat on the Council.

- Comes & goes when she pleases. She travels often to make sure she maintains her power.
- Has a circle of friends (confidants) who gossip and that's how she hears that Ziri is allowed to play with "the boys".
